

USB to 485 Isolated Converter

Introduction

The USB to 485 Isolated Converter allows you to connect your PC to GS Inverter or sensors by using a USB interface. With auto configuration in data format, baud rate and RS-485 data flow direction control. The device is able to automatically configure RS-232, RS-422 or RS-485 signals to baud rate without external switch setting. The converter is equipped with 3000V DC of isolation and internal surge-protection on each data lines to protect the host computer and converter against high voltage spikes, as well as ground potential difference. The converter also features a high-speed 256 Kb/s transmission rate, and supports various O.S. The industry DIN rail and panel mounting design enable user a fast and professional installation.

Features

- •Full compliance with the USB V1.0 and 2.0 specification.
- •System gets 1 COM port when the converter is connected.
- •Auto data format detecting.
- •Auto direction flow control on RS-485.
- •Auto baud rate switching from 75bps to 1228800bps.
- •256 byte buffer for upstream and downstream data flow.
- •Direct power from USB port, no external power necessary.
- •3000V DC isolated protection.
- •Surge protection on RS422/485 data lines.
- Power/TX/RX mode LED indicator.
- •DIN rail or panel mount support.
- •Driver support: Windows 98/ME/2000/XP/CE3.0, and Linux, and Mac OS.

Specifications

- •USB interface: Fully compliant with V1.0, 2.0 specification.
- •USB to serial bridge controller; Prolific PL2303HX.
- •RS-232 signal: 5 full-duplex (TXD, RXD, CTS, RTS, GND).
- •RS-422 signal: Differential 4 full-duplex wires (TX+, RX+, TX-, RX-).
- •RS-485 signal: Differential 2 half-duplex wires (D+, D-).
- •Data Format: Asynchronous data with all common combination of bits, parity, stop.
- •Parity type: None, odd, even mark, space.
- •Data bit: 5, 6, 7, 8 or 16.
- •Stop bits: 1, 1.5, 2.
- •Cable: USB type A to type B.
- •Communication speed: 75~256KBbps.
- •RS-422/485 line protection: Against surge, short circuit, and voltage peak.
- •Transmission distance: RS-422/485 Up to 4000ft (1200M).
- •Connection type: Screw terminal accepts AWG #12~30 wires.
- •Signal LED: Power on, TX, RX.
- •Direct power from USB port.
- •Power consumption: 1.2W.
- •Isolation voltage: 3000V DC.
- Operating environment: -10 to 50^oC
- •Storage temperature: -20 to 70°C.
- •Humidity: 10-90% Non-condensing.
- •Dimension: 151mm X 75mm X 26mm.
- •Weight: 375g.

Accessories

•LI-USB-A/B (Option) 1.8M USB A to B cable

•T-snap (Option) DIN rail mounting adapter
